troubleshooting deep neural networks - josh-tobin - josh tobin. january 2019. josh-tobin/troubleshooting-deep-neural-networks help me make this guide better! help me find: • things that are unclear **variational dropout sparsifies deep neural networks** - variational dropout sparsifies deep neural networks sparse variational dropout applied to linear models can lead to a sparse solution. like classical sparse bayesian **gppe: efficient training of giant neural networks using ...** - challenging when faced with the accelerator memory limits. there are increasing needs for scaling up deep neural networks. modern machine learning datasets are growing **imagenet classification with deep convolutional neural ...** - imagenet classification with deep convolutional neural networks alex krizhevsky university of toronto kriz@cs.utoronto ilya sutskever university of toronto **by nitish srivastava - university of toronto** - chapter 1 introduction neural networks are powerful computational models that are being used extensively for solving problems in vision, speech, natural language processing and many other areas. **neural networks - d. kriesel** - a small preface "originally, this work has been prepared in the framework of a seminar of the university of bonn in germany, but it has been and will be extended (after ... **neural networks - algorithms and applications** - neural networks - algorithms and applications introduction neural networks is a field of artificial intelligence (ai) where we, by inspiration from the human **time-series extreme event forecasting with neural networks ...** - time-series extreme event forecasting with neural networks at uber (a) creating an input for the model requires two sliding windows for x and for y **dermatologist-level classification of skin cancer with ...** - dermatologist-level classification of skin cancer with deep neural networks enhancing the expert andre esteva pi: sebastian thrun stanford university **neural network structures - ieee** - 62 neural networks for rf and microwave design a variety of neural network structures have been developed for signal processing, pattern recognition, control, and so on. **direct adaptive backstepping control for a class of mimo ...** - abstract—this paper proposes a direct adaptive backstepping control scheme for a class of multi-input-multi-output nonlinear uncertain non-affine systems using output **recursive deep models for semantic compositionality over a ...** - work on rnns, several compositionality ideas re-lated to neural networks have been discussed by bot-tou (2011) and hinton (1990) and first models such **generative neural machine translation - papersps** - generative neural machine translation harshil shah1 david barber1;2;3 1 university college london 2 alan turing institute 3 reinfer abstract we introduce generative neural machine translation (gnmt), a latent variable **long - sepp hochreiter** - long t-term shor y memor neural tion a comput 9(8):1735-1780, 1997 sepp hochreiter c at akult f ur f informatik he hnisc ec t at ersit univ hen unc m 80290 **machine learning: multi layer perceptrons** - neural networks single neurons are not able to solve complex tasks (e.g. restricted to linear calculations) creating networks by hand is too expensive; we want to learn from data
